The Director of Central Intelligence  
Washington, D.C. 20505

National Intelligence Council

27 July 1987

Mr. Albert Wohlstetter

Los Angeles, CA 90046

STAT

Dear Albert:

Thank you for your letter of July 20th, filling us in on the course of the work of your commission and your request for support from us. We stand prepared to be of general assistance where we can, but must remind you that our resources are heavily booked and must be used with very clear limitations on their time.

Our work on the Northwestern TVD is not yet complete, and we do not yet have a draft ready for internal review. Coordination is still further away. Given the specific interest in this paper, however, we are prepared to make the drafter, Capt. Larry Prior, available to brief you or a representative on his work to date and--if appropriate--to look at the work in progress. You will understand, of course, that such a draft carries no Community imprimatur in its uncoordinated form, and given its current status, we cannot release it. If you have other interests in Prior beyond discussing the Northwestern TVD paper, you would need to check with his parent office, NIOC, probably through the Director of Naval Intelligence, RAdm Bill Studeman. Prior is only on part-time loan to us from NOIC, specifically to work on the paper.

We could make our Assistant NIO for Near East and South Asia [redacted] available to you at some point to discuss Southwest Asia issues. He is indeed well qualified to do so. You will appreciate, however, that his time is under exceptionally heavy demand. He is the key player on many of the fast-track papers that we continue to be tasked to complete in support of ongoing policy concerns in his region. We could make him available for a morning or an afternoon here or there, but any longer commitment of his time would have to be scrutinized very closely.

STAT  
STAT

We appreciate the importance of the work that you and your commission are engaged in and are most interested in seeing your conclusions. We are happy to assist in this effort but regret the very real constraints on our time.

We have independently let Darnell Whitt know of our response on these issues.

Sincerely,

  
Maj Gen Frank B. Horton III, USAF  
Chairman

July 20, 1987

Major General Frank Horton  
 Chairman  
 National Intelligence Council  
 CIA  
 Washington D.C. 20505

Dear MGon. Horton:

In the course of the work of the Commission on Integrated Long-Term Strategy, four small regional teams have been set up under its Working Group on Offense and Defense (chaired by Harry Rowen and Fred Hoffman) to explore the implications for U.S. strategy of contingencies in four distinct theaters in Eurasia: the European center, the Northwestern flank of NATO (Norway, Iceland and adjacent ocean areas), Southwest Asia including Eastern Turkey, and Korea and the Northwestern Pacific. We are looking not only at the role of these regions in a global contingency but in contingencies confined to each of these regions.

Secretary Ikle and I would very much appreciate your help in connection with this work. In particular, the team on NATO's Northwestern flank would benefit greatly by having access for those with appropriate clearances to a draft of the National Intelligence Estimate on Soviet Forces and Capabilities in the Northwestern TVD. I understand that this was drafted by Capt. Lawrence B. Prior of the USMC and is due for final production in October 1987. The team would also benefit greatly from the participation of Capt. Prior in its work between now and August 20th.

The Southwest Asia team, as I have discussed with Dan Webster, would similarly benefit by the participation in its work of [redacted]

I hope very much that their experience and research can be used to further the work of the Commission.

Sincerely,

*Albert Wohlstetter*
